- **Change to:**

Fractional executive services deliver board-level strategy and operational leadership—without the full-time cost. Embrace flexible, on-demand expertise to accelerate growth. Partner with WH Advisory Services today.

- **Remove** “Explore GRC Frameworks.” The link at the top will be enough. I would rather their action be to schedule a consultation.

Our Services

Executive-level GRC expertise delivered through flexible engagement models

Fractional Executive Leadership

The same impact at a fraction of the cost. Full-time executive roles (CFO, COO, CMO, CRO/CCO) typically cost \$250K–\$550K+ annually. Fractional executives deliver comparable expertise for \$60K–\$240K annually (40–75% savings), while still providing board-level strategy and operational leadership.

- ✓ 40–75% cost savings vs. full-time executives
- ✓ Immediate access to 20+ years of C-suite experience
- ✓ Outcome-focused sprints (6–12 weeks) with clear deliverables
- ✓ Scalable support that grows with your needs
- ✓ Time-to-impact: avoid 6–12 month exec hiring cycles

[Learn More →](#)

GRC & Regulatory Strategy

Framework implementation and audit readiness across major compliance standards.

- SOC 2 Type I & II
- NIST & ISO Security Standards
- HIPAA & Healthcare Regulatory Compliance

OUR SERVICES

Executive-level Governance, Risk, and Compliance (GRC) and operational leadership—delivered through flexible, high-impact engagement models designed for speed, scalability, and measurable ROI.

1. Fractional Executive Leadership

C-Suite Impact Without Full-Time Overhead

WH Advisory Services provides fractional executive leadership across CFO, COO, and GRC roles—embedding experienced leadership directly into your business at critical inflection points.

Full-time executives often cost **\$250K–\$550K+ annually**, with additional overhead from benefits, equity, and long hiring cycles. Our fractional model delivers comparable expertise for **\$60K–\$240K annually**, enabling faster decisions and immediate execution.

Why Companies Choose Fractional Leadership

- ✓ **40–75% cost savings** compared to full-time executive hires
- ✓ **Immediate deployment**—no 6–12 month hiring delays
- ✓ **20+ years of C-suite experience** embedded into your operations
- ✓ **Outcome-driven engagement models** (6–12 week execution sprints)
- ✓ **Scalable support** that evolves with your business

What This Means for Your Business

- Faster decision-making at the executive level
- Reduced operational and financial risk
- Clear accountability and execution discipline
- Leadership alignment without long-term overhead

→ Explore Fractional CFO, COO, and GRC Services

2. GRC & Regulatory Strategy

From Compliance Burden to Strategic Advantage

Regulatory complexity is increasing—multi-state privacy laws, cybersecurity requirements, and third-party risk are now board-level concerns. WH Advisory Services transforms compliance into a structured, scalable framework that supports growth and investor readiness.

Core Capabilities

- **SOC 2 Type I & II Readiness**
- **NIST & ISO Security Framework Implementation**
- **HIPAA & Healthcare Compliance Strategy**
- **Generally Accepted Privacy Principles (GAPP)**
- **Enterprise Risk Management (ERM)**
- **Third-Party & Supply Chain Risk Oversight**

Business Impact

- Reduced regulatory and audit risk
- Increased investor confidence and diligence readiness
- Clear governance structures aligned with growth
- Integrated cybersecurity and data risk oversight

COMPARISON TABLE

	Fractional Executive	Fractional Executive
Annual Cost	\$60K–\$240K	\$250K–\$550K+
Fully-Loaded Cost	Minimal overhead (no benefits, limited or no equity)	+30% benefits, bonuses, equity, perks
Time to Hire	Immediate to 2–4 weeks	6–12 months typical hiring cycle
Time to Impact	Immediate, outcome-driven	Delayed onboarding (3–6+ months)
Engagement Model	Flexible (retainer, project, or sprint-based)	Fixed salary with long-term commitment
Scope of Work	Targeted, high-impact execution	Broad, often diluted across responsibilities
Scalability	Scales up or down based on business needs	Fixed capacity regardless of demand

Risk to Company	Low—no long-term obligation	High—difficult and costly to replace if misaligned
Access to Expertise	20+ years of specialized, cross-industry experience	Depends on single individual's background
Focus	Execution, outcomes, and rapid alignment	Mix of strategy, management, and internal politics
Best Fit	Growth-stage, transition, or inflection points	Mature organizations with stable structure

3. **Key Takeaways**

- **Cost Efficiency:** Fractional executives deliver **40–75% savings** while maintaining C-suite impact
- **Speed:** Immediate deployment eliminates hiring delays and accelerates execution
- **Flexibility:** Engagement adjusts to your business—not the other way around
- **Reduced Risk:** No long-term commitment or costly mis-hire exposure

Company Services

Comprehensive GRC and executive leadership services tailored to your needs

Service 01: Governance & Board Readiness

Cadence, charters, KPI/OKR design, audit/comp committees.

Service 02: Risk & Compliance

Enterprise risk; SEC cyber disclosure readiness; state privacy compliance roadmap.

Service 03: Vendor Management

COMPANY SERVICES

WH Advisory Services delivers integrated Governance, Risk, and Compliance (GRC) and executive leadership solutions designed to help companies scale, reduce risk, and operate with clarity at critical inflection points.

- **Service 01: Governance & Board Readiness**

Build Investor-Ready Governance and Executive Discipline

Strong governance is the foundation of scalable growth and investor confidence. We establish the structures, reporting cadence, and accountability frameworks required to support board oversight and executive decision-making.

Key Capabilities

- Board and leadership cadence design (weekly, monthly, quarterly rhythms)
- Governance frameworks and committee structures (audit, compliance, risk)
- KPI and OKR development aligned to strategic objectives
- Executive reporting and board-ready materials

Business Impact

- Increased investor confidence and diligence readiness
 - Clear accountability across leadership teams
 - Structured decision-making that supports growth and scale
-

- **Service 02: Risk & Compliance**

Proactive Risk Management for a Complex Regulatory Environment

As regulatory expectations expand, companies must move beyond reactive compliance. We implement enterprise risk management (ERM) frameworks and compliance strategies that reduce exposure while enabling growth.

Key Capabilities

- Enterprise Risk Management (ERM) design and implementation
- SEC cybersecurity disclosure readiness and governance alignment
- Multi-state privacy compliance roadmap (CCPA, emerging state laws)
- Risk identification, prioritization, and mitigation strategies

Business Impact

- Reduced regulatory and operational risk exposure
 - Audit readiness and defensible compliance posture
 - Alignment between risk management and business strategy
-

- **Service 03: Vendor Management**

Third-Party Risk Oversight at Scale

Vendors and partners introduce significant operational and regulatory risk. We implement structured third-party risk management programs that provide visibility, control, and ongoing monitoring.

Key Capabilities

- Vendor due diligence and onboarding frameworks
- Risk-based segmentation and tiering models
- Contract and compliance alignment
- Continuous monitoring and performance tracking

Business Impact

- Reduced supply chain and third-party risk
- Improved vendor accountability and performance
- Board-level visibility into external dependencies

• Service 04: People & Organization (HR, Privacy, InfoSec)

Align People, Policies, and Protection

Growth without structure creates internal risk. We align organizational design, policies, and training to ensure your teams operate with clarity, compliance, and security awareness.

Key Capabilities

- Role clarity, organizational design, and accountability structures
- Policy development across HR, privacy, and information security
- Employee training programs and compliance awareness
- Incident response playbooks and escalation frameworks

Business Impact

- Reduced internal risk and compliance gaps
- Stronger security and privacy posture
- Teams aligned with operational and regulatory expectations

• Service 05: Revenue & Go-To-Market (CRO / Commercial Strategy)

Drive Revenue with Structure, Discipline, and Visibility

Revenue growth requires more than pipeline—it requires disciplined execution and aligned strategy. We bring executive-level commercial leadership to optimize go-to-market performance.

Key Capabilities

- Pipeline development, hygiene, and forecasting accuracy
- Pricing strategy and margin optimization
- Partner and channel strategy development
- Key account management frameworks

Business Impact

- Increased revenue predictability and performance
- Improved sales efficiency and conversion rates
- Alignment between revenue strategy and operational capacity

Add:

Integrated Executive Leadership Across Functions

Unlike traditional consulting firms, WH Advisory Services delivers cross-functional executive leadership—integrating governance, risk, operations, and revenue strategy into a unified approach.

This ensures your business doesn't just become compliant—it becomes scalable, investable, and operationally disciplined.

ABOUT

Clay White

CEO & Founder - CRMA, CRISC, CISA, CIA

I've sat on both sides of the table—as an executive for billion-dollar public companies and as a founder building from the ground up. I know where the friction is, and I know how to fix it.

Clay White is a seasoned executive with over 20 years of experience in the C-suite, specifically within the realms of Governance, Risk, and Compliance (GRC). His career spans leadership roles at Maximus, Title365, and Aseptic Technology. He is also the founder of Casablanca Cocktails LLC, showcasing an entrepreneurial spirit that informs his practical approach to business operations.

Change to:

Clay White is a fractional C-suite executive specializing in Governance, Risk, and Compliance (GRC), operational leadership, and business execution. With over 20 years of experience, he has led as both a corporate executive and CEO across regulated industries and founder-led businesses, including beverage manufacturing, co-packing, and consumer brands.

He partners with founders, investors, and leadership teams to bring structure to complex operations, reduce risk exposure, and accelerate scalable growth. Combining enterprise-grade governance with hands-on execution, Clay helps organizations move from reactive decision-making to disciplined, growth-oriented leadership—without sacrificing speed.

Add:

WH Advisory Services transforms compliance and executive leadership from a cost center into a strategic advantage.

We provide fractional C-suite leadership across Governance, Risk, and Compliance (GRC), operations, and executive strategy—helping companies become investor-ready, reduce risk exposure, and scale efficiently without the cost and delay of full-time hires.

Clay White is a fractional executive and CEO-level operator with over 20 years of experience across Governance, Risk, and Compliance (GRC), operational leadership, and business execution. He has led organizations through complex regulatory environments and high-growth phases, including executive leadership in beverage manufacturing, co-packing, and consumer brands.

Through WH Advisory Services, Clay partners with founders, investors, and leadership teams to implement practical governance frameworks, align operations, and accelerate growth. His approach replaces reactive compliance and fragmented decision-making with structured, scalable systems that support long-term enterprise value.

Turning Compliance Into a Strategic Asset

Most companies treat compliance as a necessary burden. WH Advisory Services turns it into a competitive advantage. By implementing *common-sense* GRC frameworks and embedding fractional executive leadership, we help organizations:

- Become **investor-ready** with defensible governance and risk controls
- Scale operations without introducing unnecessary complexity
- Navigate evolving regulatory environments with confidence
- Align leadership, operations, and strategy for faster execution

When to Engage a Fractional Executive

WH Advisory Services is engaged at critical inflection points where experience and speed matter:

- Growth is outpacing internal structure and operational discipline
- Leadership gaps exist across strategy, operations, or revenue execution
- Regulatory complexity is increasing (privacy laws, SEC requirements, cyber risk)
- Third-party and supply chain risk require executive oversight
- Companies are preparing for investment, expansion, or transition
- Founders need executive-level support without sacrificing agility

Executive Leadership Without the Full-Time Cost Burden

Hiring full-time executives is not just expensive—it's inefficient at early and growth stages.

- Executive salaries (\$250K–\$550K+) are only part of the cost
- Benefits add ~30% on average (BLS ECEC, 2025)
- Equity, bonuses, and hiring timelines create additional drag

- Typical hiring cycles range from **6–12 months** before impact is realized

Fractional Model Advantage

- **Immediate deployment** with outcome-focused execution
- **40–75% cost savings** compared to full-time executive hires
- Access to **CFO, COO, CMO, and GRC leadership** without long-term overhead
- Monthly retainers typically range from **\$4K–\$12K**, versus \$350K+ fully-loaded executive cost

The result: faster decisions, lower risk, and measurable ROI.

What WH Advisory Services Delivers

- **Investor-Ready Infrastructure**
Governance, compliance, and reporting frameworks aligned with investor expectations
- **Operational Clarity & Alignment**
Defined processes, accountable leadership, and scalable systems
- **Risk-Adjusted Growth**
Expansion strategies that balance speed with control
- **Embedded Executive Leadership**
Hands-on involvement that drives execution—not just advisory insight

Built for Execution, Not Observation

WH Advisory Services is not a traditional consulting firm.

Clay White operates as an embedded executive—bringing CEO-level accountability and enterprise-grade GRC expertise into fast-moving environments. His background across regulated industries and founder-led businesses enables him to install structure without slowing growth.

This balance—control and agility—is where most organizations fail. It's where WH Advisory Services delivers.

ADDITIONAL SECTION: “WHEN SHOULD I HIRE...

A Fractional COO

- Operations are inconsistent or lack defined processes
- Teams are misaligned across functions (sales, production, logistics)
- Growth is creating bottlenecks in execution
- Vendor, supply chain, or production complexity is increasing
- Founders are overwhelmed with day-to-day operational decisions

What Our Fractional COO Services Deliver

Operational Structure & Process Design

- Standard operating procedures (SOPs)
- Workflow optimization and accountability frameworks

Cross-Functional Alignment

- Integration across departments and leadership teams
- Clear roles, responsibilities, and performance metrics

Supply Chain & Vendor Management

- Oversight of third-party relationships and production environments
- Risk mitigation across supply chains

Execution & Performance Management

- KPI development and tracking
- Operational cadence and decision-making discipline

Full-time COO roles often exceed \$300K–\$500K annually. A fractional COO delivers immediate operational leadership, reduces inefficiencies, and accelerates execution—without long-term overhead or hiring delays.

A Fractional CFO

- Revenue is growing, but financial visibility is limited
- Cash flow management is reactive instead of strategic
- You are preparing for fundraising, lending, or investor diligence
- Financial systems and reporting lack structure or consistency
- You need executive-level financial strategy without a full-time hire

What Our Fractional CFO Services Deliver

Financial Strategy & Planning

- Forecasting, budgeting, and scenario modeling
- Capital allocation and growth planning

Cash Flow & Profitability Management

- Working capital optimization
- Margin analysis and cost control

Investor Readiness

- Financial reporting aligned with investor expectations
- Support for due diligence, fundraising, and board communications

Risk & Compliance Integration

- Financial controls aligned with broader GRC frameworks
- Reduced financial and regulatory exposure

Hiring a full-time CFO can exceed \$350K annually when fully loaded. WH Advisory Services delivers comparable executive-level financial leadership at a fraction of the cost, with faster deployment and immediate impact.

A Fractional GRC Executive

- Compliance requirements are increasing across multiple jurisdictions
- Your business lacks a unified governance or risk management framework
- Cybersecurity and data privacy risks are rising
- Third-party and supply chain risks require oversight
- You need board-level visibility into risk and compliance

What Our Fractional GRC Services Deliver

Governance Frameworks

- Policies, controls, and accountability structures
- Board-level reporting and oversight models

Risk Management

- Enterprise risk assessments and mitigation strategies
- Third-party and supply chain risk management

Regulatory Compliance

- Alignment with evolving privacy laws and SEC requirements

- Audit readiness and documentation

Cyber & Data Risk Oversight

- Integration of cybersecurity into enterprise risk frameworks
- Incident response alignment and disclosure readiness

Hiring a full-time Chief Risk Officer (CRO), Chief Compliance Officer (CCO), or Chief Information Security Officer (CISO) is a significant financial commitment:

- CRO / CCO base salaries: typically \$180K–\$300K+
- CISO compensation: often \$220K–\$400K+ depending on scope
- Fully-loaded cost: \$250K–\$500K+ annually when factoring benefits (~30%), bonuses, and equity

In contrast, fractional GRC leadership typically ranges from:

- \$5K–\$15K per month depending on scope and complexity
- \$60K–\$180K annually, delivering 40–70% cost savings
